

Built Around You

Introducing the new 200 Series compact track loaders. **With five years in the making, they're bigger, badder and better!**

New Holland engineers used input from hundreds of customers to design our new line of compact track loaders. Designed from the ground up, these machines were built around you. No matter what your line of work – agriculture, landscaping or construction – you'll work faster, smarter and more profitably with our new compact track loaders.

- New Holland's patented vertical lift Super Boom® design has best-in-class forward dump height and reach. It's more efficient to load materials to the center of the truck.
- Our industry leading bucket breakout force and dump angle provide fast cycle times and improve productivity.
- The rigid undercarriage design is simple, yet rugged, giving you a stable ride over rough working surfaces. Plus, with fewer moving parts than a suspension track system, it's easier to maintain.
- Need more room? We have one of the widest, most comfortable cabs in the industry, giving you more head and foot room, and offering twice the visibility in critical zones. Better visibility allows safe and efficient movement around the worksite.
- Comfortable operators get more work done. Just a few new convenience features include: keyless start, a Glide Ride option, available heated or air-ride seat and a self-leveling bucket feature.
- The overall width has been reduced from 84 inches to 78 inches on the C232 and C238 units equipped with the 17.7 inch tracks. This change makes it easy to transport on standard trailers.
- Daily maintenance just got easier. Our ground-level service checkpoints are easy to access and grouped together. Plus, the new flip-top cab tilts forward for complete component access.

With over 55 attachments available for the new 200 Series compact track loaders, these machines are multi-task masters! Whether you work in agriculture, landscaping or construction, New Holland delivers the equipment to get the job done right.

World Class Products Demand World Class Dealers

The purchase of a New Holland machine is just the beginning of our relationship together. Consider your experienced New Holland Construction Equipment dealer as your local partner in productivity. Assistance in selecting the right model for your operation and developing an affordable leasing or financing plan through CNH Capital are just a few advantages your local dealer can provide.

Your New Holland dealer's full service capabilities bring you responsive support with genuine New Holland parts and all makes coverage. More importantly, we are there wherever and whenever you need us with our fully equipped service vehicles. From customized maintenance programs to professional operator and technical training, our factory-trained service and parts experts are there to assist you with any of your equipment support needs.

Your business deserves nothing less than world class product, supported by a world class business partner. That's your New Holland Construction Equipment dealer—your partner in productivity.
